

Mini Crawlers

Used Mini Crawler Saskatchewan - Our different programs for Mobile Crane Operation are designed for skilled operators who need certification or re-certification, and for inexperienced people who are seeking their first work as a crane operator. Business demand for certified crane operators is high all over the country. Positions for crane operators are in demand because of their high pay. Crane operators are among the highest paid of any heavy machine operator. Our Crane Operator training offers instruction for various mobile cranes. Course content consists of Crane Set-up, Wire Rope, Load Dynamics, Lift Planning, Load Charts, Rigging, and Signaling. The Crane Training School program is suitable for riggers, supervisors and operators. Course materials consist of a manual and informative hand-outs. The safety instruction manual which is illustrated features one hundred to two hundred fifty pages, depending on the course, of important and helpful material. Course materials consist of load charts and load chart exercises for the crane with which the trainee is working. Over half of the course includes Hands-On Safety Training. Practical training is helpful for increasing and developing personnel skills levels. Just experienced journeyman crane instructors are selected to teach the courses. Our instructors have many years of industry experience. Optional testing mechanisms are provided for all of our courses. Students will normally write tests both before and after training. A test for skills is normally administered for programs that comprise H.O.S.T. People training will be graded and tested. We offer certified training programs for the following cranes: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Articulated Boom/ Knuckleboom Cranes; Rigging / Signalperson Training and Certification; Certification & Testing; and In-The-Seat Training. As the new business requirements surface, the industry standards of practice likewise change. The industry sees constant updates to legislation and regulations, in addition to equipment and technology improvements. Industry data collection and analysis identify changing trends. Members maintain the privilege of managing their certifications and training programs. Mobile device alerts keep members ahead of workplace and personal safety news.
